THE CITY OF NEW YORK

April 17, 2015

Dear Fellow AES Corp. Shareowner:

VOTE "FOR" PROXY ACCESS PROPOSAL #9, "AGAINST" PROPOSAL #7

Support Shareowner Proposal #9 Requesting Proxy Access

The California Public Employees Retirement System (CalPERS) and the New York City Pension Funds urge shareowners to vote "FOR" Proposal #9 – a non-binding proposal to give shareowners effective access to the director nomination process – at the AES Corp. annual meeting on April 23, 2015. Collectively, our funds have \$468 billion in assets and are substantial long-term AES Corp. shareowners, with 3,529,944 shares.

Proxy Access a Fundamental Shareowner Right

Providing access to a company's proxy to permit shareowners the ability to nominate directors to the board is one of the most important rights given to the owners of a company. Without effective proxy access, the director election process simply becomes a ratification of corporate management's slate of nominees. Therefore, we believe long-term shareowners should have meaningful access to this process on the terms specified in proposal #9. The proposed thresholds include:

- Beneficial ownership of at least 3 percent of the outstanding stock;
- Three years of continuous ownership; and
- Ability to nominate up to 25 percent of the board.

Vote "AGAINST" Management Proposal #7 Requesting Overly Challenging Ownership Threshold

Before adopting its now vacated proxy access rule in 2010, the SEC undertook careful analysis, both internally and through the public comment process. It was the SEC that determined that a 3 percent ownership threshold was appropriate, stating "The ownership threshold we are establishing should not expose issuers to excessively frequent and costly election contests..., but it is also not so high as to make use of the rule unduly inaccessible as a practical matter." The SEC went on to say that higher ownership threshold set at 5 percent "may not be consistently and realistically viable, even by shareholder groups."¹ Therefore we recommend shareowners vote "AGAINST" management's proposal #7 requesting a 5 percent ownership threshold.

CFA Institute Concludes Proxy Access Would Benefit the Markets and Boardroom

A 2014 report published by the CFA Institute found that giving investors access to the proxy to nominate directors would benefit shareowners and the capital markets.² The specific report findings include:

- Proxy access has the potential to enhance board performance and raise US market capitalization by between \$3.5 billion and \$140.3 billion.
- Proxy access reform will not hinder board performance.
- Proxy access is used infrequently and with little disruption in other markets around the world where it is allowed.

US Companies of Varying Sizes Embrace Meaningful Proxy Access

In 2015, a growing number of U.S. companies across industries have agreed to voluntarily adopt proxy access for shareowners that have collectively held 3 percent for 3 years – recent examples include Abercrombie & Fitch, Bank of America, Big Lots, First Merit, General Electric, Kindred Healthcare, Prudential Financial, Splunk, Staples, Wendy's, Whiting Petroleum, and Yum Brands. These companies are voluntarily adopting the provisions, thereby rejecting the common corporate assertion that proxy access is costly, distracting, and favored mainly by special interest groups.

Support Proxy Access and Director Accountability – Vote “FOR” Shareowner Proposal #9

Proxy access is fundamental to a sustainable system of corporate governance that fosters director accountability and long-term value creation. We believe fully accountable governance structures should be in place to offer shareowners certain protections and a meaningful voice in the boardroom – effective access to the director nomination process does just that. Please vote “FOR” proxy access proposal #9.

Should you have any questions, please feel free to contact Todd Mattley, CalPERS Investment Officer and Global Head of Proxy Voting at Todd_Mattley@calpers.ca.gov or 916-795-0565.

Thank you for your support.

Sincerely,

Anne Simpson
Senior Portfolio Manager – Investments
Director of CalPERS Global Governance
